Artist Statement

My artistic journey is all about bringing a burst of color and eccentricity to various mediums like digital illustrations, acrylic and watercolor paintings, and ceramic creations. I strive to capture the essence of otherworldly beings with a playful grace.

Recently, I've been delving deep into the world of crystals and their healing properties. I infuse my pieces with their energy, making every brushstroke serve as a channel for the vibrations and transformative power that crystals offer. This creates a visual symphony of color and intention in my work.

My artistic path is influenced by a fusion of Afro-Futurism and Surrealism. I aim to embrace the ethereal allure of crystals in a way that invites viewers to explore their own inner realms through my art. You'll find that my vibrant palette, unique perspectives, and crystal-infused creations breathe life into every canvas I touch.

My artistic practice is rooted in a profound mission: to explore the depths of self-awareness and foster grounding and coping mechanisms through the transformative power of art. Whether it's through my paintings, art workshops, or classes, I'm dedicated to guiding individuals on a journey of introspection. My goal is to enable them to discover their inner selves while finding solace and resilience in the creative process. Ultimately, I aim to facilitate growth, healing, and self-discovery by nurturing a space where artistic expression becomes a pathway for personal transformation.
